HUTCHINS FARM PRODUCE CALENDAR

The following calendar represents our best guess as to when our various crops will be available during the season. Because of the nature of our business, the availability of any and all items is subject to a variety of forces beyond our control, so the following list should not be treated as a guarantee. The small 'x' indicates limited or tentative availability, usually at the beginning or end of a crop's natural season, the large X indicates that the crop is normally abundant at that time.
